

# Prestige

When our founding members formed Prestige more than 16 years ago, the mission was set in place to always deliver a product that is for members, by members.

We are excited to continue the tradition of delivering an experience crafted exclusively for you with our 2017 edition of the Prestige Pavilion. In addition to the JCK service kit which contains key event information, you will soon be receiving our Prestige Exhibitor Service Kit. This kit contains all the information you need about your Salon in the Prestige Pavilion and the additional options you have for making your space uniquely yours. It is your "one-stop" resource for the logistical needs of your booth, and allows you to focus more on selling during Market Week than worrying about multiple issues in preparing your exhibit.

For returning exhibitors, you have the option of re-using your previous layout, furnishings and graphics by simply checking a form. You may also choose to update any and all aspects of your salon, and there are opportunities to do so within the Service Kit. Exhibitors who are new to the Pavilion will receive a standard layout and furnishing deliverables for your Salon size, and you will have the opportunity to customize it directly with our EFI team.

In addition to this kit, your Prestige team is always available to answer any questions about the Pavilion or your Salon.

Thank you for being a part of Prestige, and we look forward to working with you to produce the 2017 Prestige Pavilion at JCK!
